

Child Protection Report (APCM 2018)

No incidents have been reported in the past year.

The new, named leaders of the Sunday Club all hold a DBS check. However, the model which we are pursuing, which encourages further parental involvement, needs consideration. I am in the process of drafting a 'Coming Together' statement, which will hopefully serve to clarify the situation for parents. It is vital that Sunday Club be inclusive and welcoming. At the same time, we have a duty to ensure all adults attending are given clear guidelines and also that parents who chose to send their children to Sunday Club alone are aware of the policies and procedures in place. I plan to prepare the statement and a family friendly Child Protection policy in time for the re registration for Sunday Club families in September, as this would seem like the natural time to share such communication. In the meantime, I have full faith in current leaders and their awareness of Child Protection matters.
